# Icon Guide

## Keep Kool™ Mesh

Allows air to circulate through the fabric

## Moisture Wicking

Draws moisture away from skin

## Soil Release

Fabric treated with stain-release agent

## Wrinkle Resistant

Fabric treated with a permanent press finish that requires minimal pressing

## Yarn Dyed

Yarn is dyed before it is woven into fabric for better color retention

## Reversible

Item is reversible for maximum wear

## Superior Colorfastness

Color holds fast and resists fading through the industrial laundering cycle

## Retail Ready

Individually packaged and tagged for retail sale

## Permanent Crease

Crease is baked into the fabric to ensure a crisp professional appearance without ironing

## Pearl Plus Buttons

Pearl buttons resist yellowing and withstand the rigors of industrial laundering

## EV - Enhanced Visibility

Products provide heightened visibility, particularly in low-light conditions and are Industrial Laundry compliant; garments are not ANSI compliant

## Plus Blend

Enhanced Poly/Cotton Blend fabric consisting of ring spun yarns

## Cloth-covered Buttons

Durable cloth-covered buttons improve the polished appearance of the garment

## Knit Cuff

Polyester knit cuffs make sleeve length adjustable and add protection

## Executive Stretch

Fabric flexes to provide a comfortable fit throughout the work day

## Unisex

Fit suitable for men and women

## Fast Feed Hem

Fast feed hem facilitates efficient ironing

## Route Ready

Products arrive ready to deliver to your customers

## Clean Seam

Clean seams provide added comfort and a professional look by eliminating unsightly, rough hems at collars and cuffs

## Murata

Product made with Murata Vortex Spun (MVS) yarn provides the most durable industrial laundering fabric and optimal ROI

## Summit Services

Post-manufacturing alterations and embroidery with Stratton's in-house team

## Kwik Kustom™

Kwik Kustom™ items must meet minimum quantity requirements (allow up to five weeks for delivery)

## Full Custom

Custom items must meet minimum quantity requirements (allow up to 7,8 weeks for pattern engineering and fabric procurement – contact us for more information)

## Fire Retardant

Fabric treated to reduce or delay combustion

## Sewn In Collar Stays

Support the structure of the collar through the rigors of industrial laundering

## Flex Waist

Hidden side elastic allows for up to 2" expansion for added comfort.

## Our Company

Stratton Sports serves Clothing items and industrial rental to brands, retailers and large public and private restaurant and hospitality companies and other large buyers of Clothing and uniform programs. From service apparel and aprons to linens and specialty items, if you use it, we supply it. Our product offering is a wide variety of kitchen, industrial, food processing, and image uniforms. Every product is custom made, utilizes our standard patterns and in-stock fabric and trims, with low minimum order requirements.

We'll help ensure that your garments meet local, state or federal requirements. If you are an end user or individual restaurant and need help selecting a distributor or local linen service,

**Email at [info@strattonsports.co](mailto:info@strattonsports.co).** We look forward to working with you to deliver the products you need.

Certified to ISO 9001:2000, CE MARK, CAMP APPROVED BY FDA USA.

## About Stratton Sports Textile Industries

Since 1990, Stratton Sports is one of the premier, uniform and textile manufacturers and distributors in Pakistan. Our catalog includes an extensive collection of kitchen and industrial merchandise. To support this, we have created a global supply chain, which efficiently brings our product to you at competitive prices. Stratton Sport's manufacturing capabilities utilize first-rate fabrics and meticulous sewing standards to withstand the rigors of both home and industrial laundering.

---
